Subject: Meeting with CRC on Class VI

Good Morning Calvin,

We received a request from California Resources Corporation (regarding the CalCapture A1-A2 reservoir) to have a meeting on a potential Class VI project. Our tracker says this project would be in California. Would you please provide us with the days and times that work for Region 9 over the next two weeks, and I can set up a Teams meeting.

Thanks!

Best,
Sharon

Subject: EPA Class VI

Molly,
CRC is working through a Class VI application for the CalCapture A1-A2 reservoir.

CRC would like to schedule some time with the EPA to introduce the project and discuss the process and expectations.

Is there a time that works best for you all next week?

Many thanks,

TMH
